

Financial Speed vs. Financial Risk

To accumulate \$1,000,000 investing \$20,000 per year

The following chart shows how many years it would take to accomplish your goal!

Rate of Return	# years to accomplish goal
0%	50 years
5%	26 years
8%	20 years
12%	18 years
15%	15 years

How much advantage is there to taking on unnecessary risk?
